Primary School PPA Teacher

Description PPA Teacher

Job Description

For many Primary School Teachers or Supply Teachers this is a dream position. Every Teacher in a school gets release time from their class each work for Planning Preparation and Assessment or PPA.

For a school to be able to do this they need to have another teacher who can step in to cover the class. Schools have varying ways of tackling this problem. By far the most popular way of achieving this is for a school to employ a specialist teacher in one particular subject who teachers across the entire school. In the last school I worked in there was a specialist Music teacher another popular subject for this type of role is PE.

The Role of a PPA Teacher often has less Planning to do because you may only cover one subject, or in other scenarios the Class Teachers plan for the whole week and give you the prepared lessons ready to deliver to the class.

Job Role

I have been contacted by a Primary School near to Stevenage who would like me to find for them a Part Time PPA Teacher who can work 3 or 4 days per week across the entire Primary age range for the entire Summer Term.

Key Skills

Flexibility – Happy to work in all year groups

Good Subject Knowledge – Ideally experience of leading a subject which you can deliver across the whole school.

Team Player – As you will be covering all class teachers an ability to get along with people is essential

Communication – As you will be liaising with all members of staff on a weekly basis.

Qualifications

QTS -All applicants should have QTS

As for any teaching position there are stringent vetting procedures to be followed and all applicants will be subject to full referencing and an enhanced DBS check.
